**M/S IATOME ELECTRIC  
INDIA PVT. LTD.,  
COIMBATORE**

**FOR**

**DEVELOPMENT AND  
COMMERCIALIZATION  
OF PORTABLE X-RAY  
MACHINE**

**TDB has approved financial support to M/s latome Electric India Pvt Ltd, Coimbatore for “Development and Commercialization of Portable X-ray Machine” through an agreement signed on 22nd January 2021. The company had submitted an application in response to its invitation for proposals for technologically innovative solutions towards fighting COVID-19.**

**The project envisages development & commercialization of battery powered digital and portable Chest X-ray machines as standalone medical radiography equipment suitable for ICU & Isolation Wards. Chest x-rays of the patients are not only useful for immediate detection and study of the degree of Coronavirus infection in the chest of the patient enabling further treatment roadmap, but also for various other ailments. Low cost Portable X-Rays machines with Digital Imaging and Battery Back-Up would be of immense help in the isolation wards and in remote & rural locations with limited or no power.**

**Mobile Digital X-ray**

**Portable Digital X-ray**
