12. Proposed Project Summary:

Under the India-Spain Programme of Cooperation on Industrial Research and Development, I am interested in collaborating as the academic partner with a company applying as the lead agency for this project. My expertise lies in the fields of decision sciences and operations management, where I focus on research and training to address industrial challenges.

I can contribute to solving industrial problems by applying both quantitative and qualitative tools and techniques, and by designing managerial frameworks to support the implementation of these solutions. I regularly use software such as SPSS, N-VIVO, R, Smart PLS, and Excel Solver in both my teaching and research. If needed, I will involve a team of experienced faculty colleagues to ensure the project's success.

13. Main characteristics and specific technological expertise of potential partner you are looking for:

I wish to collaborate with any leading company which is seeking technical assistance that matches with our domain expertise as briefly described in point no. 12 above.

14. Are you interested to pitch your company & project at our upcoming India – Sweden meets?
